1. Historical five-year reporting period: 2015-2019

What percentage of overhead transmission facilities greater than 60 kilovolts did you inspect for compliance with the National Electric Safety Code (NESC) relating to vertical clearance in the historical five-year reporting period?

Zero percent (0%) of overhead transmission facilities greater than 60 kilovolts were inspected for compliance with the National Electric Safety Code (NESC) relating to vertical clearance in the historical five-year reporting period. We visually inspect 100% of overhead transmission facilities annually, but past inspections have not included actual vertical clearance measurements.

2. Future five-year reporting period: 2020-2024

What percentage of overhead transmission facilities greater than 60 kilovolts do you anticipate you will inspect for compliance with the NESC relating to vertical clearance during the future five-year reporting period beginning on January 1 of the year in which this report is submitted?

Inspection for compliance with the NESC relating to vertical clearance of one-hundred percent (100%) of our overhead transmission facilities greater than 60 kilovolts is anticipated during the future five-year reporting period beginning on January 1, 2020.
